

THOMSON REUTERS KORTES

METHODOLOGY

Crude oil shipments on Russian open market via Transneft system. (INE6)

Content:

Volume of shipments of crude oil from oil producing companies to Russian refineries by pipelines under spot and formula pricing agreements.

Sources of information:

- CDU TEK statistical data on shipments to the refineries
- Thomson Reuters Kortes information.

Initial data in the Report is processed and adjusted as the information is further detailed.

Data structure:

The data on the volume crude oil shipments (crude oil producers (vertically integrated oil companies, independent oil companies) in first column, refineries in the second one) is provided with a breakdown by following types of contracts:

- Formula pricing;
- Commodity exchange price.

The rest of volumes in the Report are traded at the price of the spot market.

Slavneft's shipments are included to Rosneft's and Gazprom Neft's ones.

Dimensions: thousand tonnes (kt)

Periodicity of publication:

Monthly, before the end of month following the reporting month.

Publication form:

The report is provided in .xlsx file.

Methodology. Crude oil shipments on Russian open market via Transneft system. (INE6)
