

THOMSON REUTERS KORTES

METHODOLOGY

Crude oil refining and petroleum products production by Russian mini-refineries (MNPZ).

Content: Crude oil refining and production of gasoline, diesel and fuel oil on Russian mini-refineries.

Products: Crude oil refining, gasoline, diesel and fuel oil.

Sources of information:

- CDU TEK statistical data on crude oil refining volume, gasoline, diesel and fuel oil production on Russian large and mini-refineries.
- Rosstat statistical data on crude oil refining volume, gasoline, diesel and fuel oil production on Russian large and mini-refineries.
- Thomson Reuters Kortes information.

Data structure:

The data is split by products, mini-refineries and companies.

Production volume by companies is calculated as the sum of production volumes of mini-refineries of each company. The ownership of refineries is indicated in accordance with the official statistics.

The total data for Russia is calculated as the sum of volumes by mini-refineries.

If there is no data about crude oil refining on some refinery, the cell in the table will be left empty. The data about petroleum products is indicated in accordance with official statistics.

Dimension:

Thousand tonnes.

Periodicity of publication:

Monthly, before the end of month following the reporting month.

Publication form:

The report is provided in xlsx and pdf files.

Crude oil refining and petroleum products production by Russian mini-refineries (MNPZ).
