

# THOMSON REUTERS KORTES

## METHODOLOGY

### Gasoline production with breakdown by grades and refineries (DE111)

**Content:** gasoline production with breakdown by grades and on a cumulative total from the beginning of the year.

**Product:** Gasoline.

**Data sources:**

- CDU TEK gasoline production statistics by large and mini-refineries of Russia;
- Information gathered by Thomson Reuters KORTES.

**The report structure:**

Volumes of gasoline production are indicated with the division by grades depending on the octane number (A-76/80, A-92, A-95, A-98 and higher), by producers, companies and for Russia in general.

Production volumes by companies are calculated as the sum of production volumes of large and mini-refineries affiliated with the company. The ownership of refineries is indicated in accordance with the source of initial information.

The data for Russia as a whole is calculated as the sum of volumes of production by companies, independent refineries and mini-refineries.

**Dimension:** Thousand tonnes.

**Periodicity of issue:** Monthly, before the end of month following the reporting period.

**Issue form:** The report is provided in the xlsx file.

**Methodology. Gasoline production with breakdown by grades and refinery (DE111).**
