

THOMSON REUTERS KORTES

METHODOLOGY

Bunker fuels and other heavy fuels (inc. heating oil) production by Russian refineries (FSP).

Content: bunker fuels and other heavy fuels (inc. heating oil) production volumes on Russian refineries for the reporting period.

Products: distillate bunker fuel, heating oil, residual bunker fuel, heavy distillate of gas condensate, vacuum gasoil and other fuel oil.

Sources of information:

- CDU TEK statistical data on production of distillate bunker fuel, heating oil, residual bunker fuel, heavy distillate of gas condensate, vacuum gasoil and other fuel oil on Russian refineries.
- Thomson Reuters Kortes information.

Data structure:

The data is split by products, refineries and companies.

Production volume by companies is calculated as the sum of production volumes of refineries of each company. The ownership of refineries is indicated in accordance with the official statistics.

The total data for Russia is calculated as the sum of volumes by refineries.

The data about vacuum gasoil and fuel oil production is shown as total in the single product group.

Dimension:

Thousand tonnes.

Periodicity of publication:

Monthly, before the end of month following the reporting month.

Publication form:

The report is provided in xlsx and pdf files.

Methodology. Bunker fuels and other heavy fuels (inc. heating oil) production by Russian refineries (FSP).
