

THOMSON REUTERS KORTES

METHODOLOGY

Production and distribution of commercial fuel oil on the domestic market and export (with breakdown by refinery and transport) (MTE22)

Content:

Fuel oil production and shipments volume by refineries over the reporting month and cumulative sum from the start of the respective year.

Products: Commercial fuel oil.

Sources of information:

- CDU TEK statistical data on fuel oil production volume by Russian refineries and mini-refineries and distribution of commercial fuel oil on the domestic market and export.
- Railway shipments stats
- Customs stats
- Thomson Reuters Kortes information.

Data structure:

The data is provided with a breakdown by fuel oil groups, companies and affiliated refineries and mini-refineries, overall volume is shown for independent mini-refineries. Companies which are not subsidiaries of vertically integrated oil companies are considered to be independent.

The data on distribution of commercial fuel oil on the domestic market and export is provided with breakdown by refinery and transport type. Types of transport consider rail and other kinds of transportation. The data on other kinds of transport includes inland water transportation etc.

The data on shipments volume to the domestic market is calculated as a sum of supplies for Russian consumers by rail and other types of transport.

The data on export shipments volume is calculated as the sum of export supplies by rail and other types of transport.

Production and shipments volume by companies is calculated as the sum of volumes of refineries of each company.

The total data for Russia is calculated as the sum of volumes by companies, independent refineries and mini-refineries.

The data is provided for each of the reporting months and as a cumulative sum from the start of the respective year.

Dimensions: thousand tonnes (kt)

Periodicity of publication: No later than 10th of the month following the month next to the reporting period.

Publication form:

The report is provided in xlsx file. Each sheet in it is named in accordance with respective month; the last one is Cumulative Sum. Each issue contains as many sheets as number of reporting month +1.

Methodology. Production and distribution of commercial fuel oil on the domestic market and export (MTE22).

Phone.: +7 (495) 961-01-89, ext. 145, 158
